## Important Safety Notice

### GE Recalls Dishwashers

Dear Consumer:

In cooperation with the U.S. Consumer Product Safety Commission, GE Appliances has announced a voluntary recall to repair certain Hotpoint®, GE® and GE Profile, GE Eterna™ and GE Adora™ plastic tub dishwashers with front controls. According to GE's records, you may have purchased one of these dishwashers. Please read this notice carefully and visit GE's recall website or call GE's recall hotline if your dishwasher is included in the recall.

This voluntary recall is due to an electrical failure in the dishwasher's heating element that can pose a fire hazard. GE has received fifteen reports of dishwasher heating element failures, seven of which resulted in fire and smoke damage beyond the unit. **Consumers should immediately stop using the recalled dishwashers and visit GE's recall website any time at [www.geappliances.com/recall](http://www.geappliances.com/recall) or call toll-free at 1-866-918-8760 from 8 a.m. to 5 p.m. Monday through Friday Eastern Time to schedule a free repair, or for information about a rebate toward the purchase of a new dishwasher.**

Consumers should not return the recalled dishwashers to the retailer where they purchased as retailers are not prepared to take the units back.

This recall includes 1.3 million units sold in the U.S. Units were manufactured between March 2006 through July 2006, and November 2006 through April 2008. **The model and serial number can be located on the inside of the dishwasher on the left tub wall.**
